

Washington County Summer Activities Guide

Summer is almost here and many parents will be looking for childcare. *Child Care Resource & Referral, Western Region* is a state funded agency that is available to help you find child care in your community. We will be happy to help you find full-time care. We also provide documentation on the dangers to children as well as the cost to communities when children are left home alone. For more information, free child care referrals and other valuable resources, please call us at 435-628-4843 or visit our website, www.childcarehelp.org.

We have also compiled a listing of summer activities for children for the ten-county Southern Utah area we serve. The following is the list from your county. Other counties are available by calling us or by downloading them from our website. We realize this is NOT a comprehensive list. However, we have tried our best to include as many summer activities as we could find. If we have not included your activity, please call our office and we will be happy to include your activity in our next printing. We hope this information will be useful as you plan summer activities for your children.

We cannot guarantee quality or recommend programs. This is merely a list of programs in your area. We encourage parents to carefully check out any program before enrolling their child.
